ABOUT ME

Enthusiastic and detail-oriented computer applications graduate with a strong interest in full stack software development and modern technologies. Possesses solid academic credentials, rapid adaptability to new tools, and a collaborative mindset focused on creating high-performance applications.

EDUCATION

Master of Computer Applications (MCA)
Dr. J. J. Magdum College of Engineering, Jaysingpur
CGPA: 8.70 2027

Bachelor of Computer Applications (BCA)
Shivaji University, Kolhapur
CGPA: 9.00 2025

Higher Secondary Certificate (HSC)
Maharashtra State Board
Percentage: 62.00% 2022

Secondary School Certificate (SSC)
Maharashtra State Board
Percentage: 82.00% 2020

TECHNICAL SKILLS

Frontend

- HTML5, CSS3, Tailwind CSS
- JavaScript, ES6+, React
- Responsive Web Design, Bootstrap

Backend & Databases

- Node.js, Express, Flask
- MySQL Database Management, SQLite
- RESTful API Development

Programming Languages

- Java, Python, C, C++
- JavaScript

Tools & Concepts

- Git, GitHub, VS Code
- OOPs, DBMS, Operating Systems
- Data Structures & Algorithms

PROJECTS

Lost and Found Portal
Tech Stack: *React, Node.js, Express, MySQL, Tailwind CSS*

- Developed a full-featured web-based portal to report and track lost and found items within a college campus.
- Built responsive frontend user interfaces using React and designed SQL database for secure data persistence.
- Implemented user authentication and RESTful endpoints for posting claims and updates.

Foundry ERP System
Tech Stack: *Java, Spring Boot, MySQL, HTML5, Bootstrap*

- Contributed to the development of an ERP system focused on workflow automation and inventory management for a foundry.
- Developed modules for managing raw material consumption and production records.
- Integrated frontend templates with Spring Boot MVC controllers and optimized complex relational database queries.

Student Academic Dashboard
Tech Stack: *Python, Flask, SQLite, Chart.js, CSS3*

- Designed and implemented a lightweight dashboard to monitor and analyze student semester performance metrics.
- Utilized Chart.js for interactive visualizations of grade trends and student distribution.

STRENGTHS

- Strong analytical thinking and logical reasoning skills.
- Highly adaptable and capable of quick learning in fast-paced tech environments.
- Consistent academic track record demonstrating diligence and focus.
- Effective communication, leadership, and team collaboration abilities.

LANGUAGES

- English (Professional)
- Hindi (Conversational)
- Marathi (Native)
